## Sarawak Metro Organises Road Safety Campaign Ahead of Festive Celebrations

**KUCHING:** In conjunction with the Hari Raya Aidiladha and the upcoming Hari Gawai celebrations, Sarawak Metro Sdn Bhd organised a Road Safety Campaign to promote greater awareness on road safety among motorists during the festive season.

Held along the Kuching-Samarahan Expressway near The Summer Shopping Mall, the campaign was organised in collaboration with the Blue Line Package 1 contractor, ICSB-CRECM-NYET JV, made up of Ibraco Construction Sdn Bhd, China Railway Engineering Corporation (M) Sdn Bhd and Nanyang Tunnel Engineering Sdn Bhd together with Sarawak Contingent Police Headquarters, Kota Samarahan District Police Headquarters, the Samarahan Resident's Office and Samarahan District Office.

The initiative was led by Sarawak Metro's Head of Department of Quality, Safety, Security, Health, Environment and Traffic Management, Mijun Nasin, together with a team from Sarawak Metro who participated in the distribution activities throughout the programme.

During the campaign, 50 safety helmets and goody bags were given to motorcyclists passing through the area while motorists received goody bags.

Sarawak Metro Chief Executive Officer, Ts. Mazli Mustafa said the campaign reflects the company's continued commitment towards promoting public safety and fostering stronger collaboration with relevant agencies and stakeholders.

"We are pleased to work together with our stakeholders in promoting road safety awareness, especially during the festive season when traffic volume is expected to increase significantly," he said.

He also reminded all road users to remain vigilant and practise safe driving habits while travelling to their hometowns and other destinations during the celebrations.

"At the same time, we would like to express our appreciation to members of the public for their continued patience and understanding as construction works for the Kuching Urban Transportation System (KUTS) Project progress across several areas," he added.

"Hence, the public's cooperation and understanding is very important in helping us to achieve our work target as we race to the finishing line in delivering the government's initiative to modernise the public transportation in the State," Mazli enthused.

Mazli also extended his Hari Raya Aidiladha greetings to Muslims celebrating the occasion, as well as warm Hari Gawai wishes to the Dayak community.

### About Sarawak Metro and KUTS project:

Sarawak Metro Sdn Bhd (Sarawak Metro), a State-owned enterprise, has been entrusted by the Sarawak Government to modernise public transport through the Kuching Urban Transportation System (KUTS) project.

Sarawak Metro is the implementer, operator and maintainer of the KUTS project.

The project is being developed in phases, and Phase 1 includes the development of three lines: the Blue Line from Rembus in Kota Samarahan to Hikmah Exchange in the city centre; the Red Line, from Kuching Sentral to Pending; and the Green Line, from Pending to Damai.

The backbone of the KUTS project is the introduction of the zero-emission Autonomous Rapid Transit (ART) hydrogen vehicles.

The ART vehicles will be operated on dedicated lanes, meaning they will not share the lane with other road users. The ART hydrogen vehicles will run on rubber tires, and hence the dedicated lanes will be trackless. The lanes will mostly be at-grade (road level) while certain sections of the alignment will be elevated.

The ART operation will be supported by a network of feeder buses, which will also consist of hydrogen-powered vehicles to offer the 'first mile and last mile' connectivity for commuters.

The move to use hydrogen is in line with the Sarawak Government's aspirations to advance the hydrogen economy and to decarbonise public transport in Sarawak.
